| On tour through the community work observed at 9 East Shore drive, observed work being performed without permits and apparently violated the Northern property line setback. Discussed the condition with the owner who stated he had a right to perform the work and was not going to Cease. Letter being prepared. Letter sent, certified return recent requested. Letter received based on the owners statement but the post office could not document the trace. Homeowner requested permit. |          |                  |          |            |            |           |          |          |      |         |                          |   |   |         |
| Note: 22 Sea Crest this was completed before I took over and should not have been on this spreadsheet so will be removing from the next report.  |          |                  |          |            |            |           |          |          |      |         |                          |   |   |         |
