

Manager's Corner

Hello Black Pointers,

What a great stretch or weather we've had lately. No jellyfish, seaweed is at a minimum, and the water temperature is a cool 73 degrees according to Joe and Dan's secret thermometer at the boat launch, oops! Come down and enjoy our awesome beaches.

We have another Movie on the Beach on Monday night, July 29th at Sunset - they nixed my suggestion of "Jaws," figured the kids wouldn't go back in the water. There's always "Drop-in Ladies Tennis" on Tuesdays & Thursday at 9:30am on the Clay courts. And you still have time to train for the Black Point Road Race on Saturday, August 3rd. The kids aren't slowing down, so come out and play.

Have fun, stay safe, and you can find me at the beach, or just out and about. I can be reached on my cell phone immediately at (860) 460-7641 between the hours of 8:00am and 6:00pm. You may also email me at: BPBCManager@gmail.com.

See you on the beach,
Jim Moffett

Women's Club News

"Salt Life is the Good Life." We had a great turn out for the Beach Sign craft night by Sign Loft. Women's club members made some beautiful keepsake beach signs that will adorn their homes.

On July 30, we have Nicole Fevrier Davis presenting. She will be teaching us about the importance of the mind and body connection. There will be a guided group visualization session followed by an explanation of the experience and the meaning behind certain symbols. The information she shares is both empowering as well as enlightening. She balances her scientific physical expertise with her mental, emotional, and spiritual gifts as a psychic to assist people with improving their lifestyles. If you are interested in a private session with Nicole please contact me.

A few reminders . . . please sign-up for our **Potluck Dinner & Business Meeting on August 6** and bring your favorite dish to share with the group. Our **Annual Banquet will be on August 20** at Langley's restaurant, please sign up with your payment before Aug. 6.

Mark your calendars! There are some great events coming up in August for the whole neighborhood. Chair Corner

Dear Neighbors,

I'd like to update you on progress toward the pier reconstruction. You can also follow pier subcommittee news at blackpointbeachclub.com.

The BOG and Pier Committee met on July 17th to review the contract with GNBC, Docko and Pinder Construction Company for the pier reconstruction. Our attorney had already made some changes with the agreement of Pinder's lawyer. At the meeting the board and committee requested a few minor modifications to the contract; it is not expected that these will present any obstacles. Once they are agreed upon, the contract will be signed.

Meanwhile, DEEP applications have been signed and submitted to DEEP on the 15th. Approval may take up to 90 days. While waiting for DEEP approval, Pinder will be ordering the steel which has to be epoxy coated for our use.

Once the contract is signed, we will begin a schedule of payments for design engineering, which is provided by GNCB Consulting Engineers and Docko, who are contracted by Pinder, and, if our changes to the contract are accepted, we will pay for the steel as soon as it is delivered to Pinder and inspected by us. No further construction costs will be paid until work begins, and payments will be made as stages of work are completed. The pier committee will be selecting an engineer to oversee the project on behalf of BPBCA once the DEEP applications have been approved.

Pending approval by DEEP, it is anticipated that work will begin after Labor Day, at which point main beach will be closed until project completion. The project is expected to be completed in December, barring extraordinary weather circumstances.

Once the contract has been signed, a copy will be placed in the club house for those who would like to read it. This reconstruction is a significant part of Black Point's history and will contribute to our future enjoyment of our beaches. I appreciate that this expense has presented difficulties for some and I thank you for your sacrifices. I would like to thank Steve Beauchene and the members of the pier subcommittee, John Campion, Will Fountain, Ron Gianamore, Mike Johnson, Bob Kallagher, Phil Lombardo, and Jim Moffett for offering expertise, research, and hours of time toward bringing this project to fruition.

Enjoy these summer days, get into the water as much as possible, and remember that it is a good 10 degrees cooler at the shore than it is inland. We are so fortunate!
