The meeting will be led by the consultant team from SLAM and will involve developing the objectives and strategies underlying these four goals.

- * Foster a Healthy and Vibrant Lifestyle for All Community Members through Safe and Comfortable Access to Resources
- * Invest in and Improve the Waterfront to Support Long Term Resiliency and Community Access
- * Improve the Financial Sustainability and Fiscal Accountability of the Association
- * Strengthen and Build Organizational Efficiency and Structure to Support a Proactive, Collaborative, and Accountable Association Governance

The community is invited to listen in on the discussion and we anticipate that there will be an opportunity to provide input as the meeting evolves.

The outcomes of this meeting are likely to be the foundation of an in-person workshop to solicit additional community input and prioritization for this important part of the process.
