Black Point Board of Governors:

I am submitting my resume to apply for a seat on the Black Point board. I grew up in Niantic and attended East Lyme schools and now live at 21 Sea View Ave. We have owned our home for nine years, becoming full-time residents in 2021. This is a vibrant and growing community and I feel there is important work being done around long-term planning, maintaining our shoreline, and enhancing the social fabric of this association.

My professional career has centered on marketing communications. I have directed several departments and multimillion dollar budgets at several large Connecticut companies, including the Saint Raphael Healthcare System, Yankee Energy Services, and Subway World Headquarters. I have also managed my own consulting business for more than 20 years and still maintain a limited number of clients. In addition, I spent several years as an associate professor at both Quinnipiac and Post universities and currently volunteer with the East Lyme Giving Garden as a board member and Mystic Seaport as an interpreter. I've served on several boards as both a member or as an administrator and understand the dynamics of this process. I feel my communications background and the diverse people I've worked with will be strengths in being a part of this board.

My education includes an undergraduate degree from Simmons University and an MBA from the University of Connecticut. My husband, Dominick, and I have been married 25 years and we have two great kids, Nick and Blythe. I love being a part of Black Point and look forward to serving my neighbors as a member of the Black Point Board of Governors.

Best,

Geri
