

Kelly Fecteau

My name is Kelly Fecteau and I'd like to officially announce my interest in running for a second time and 1st full term for the BP BOG.

My husband, Jeff and I live at 20 Bellaire Road; we bought our home in our 2017, and decide to move here full time in 2020. We couldn't be happier with this decision.

After settling into our remodeled home, I got involved in Black Point, joining the Women's Club where I started a Setback League for our community during the fall and winter months. This past season we had 2 tournaments and they have been fun and successful, giving people the opportunity to meet members of the community.

In terms of my background:

I worked as an Administrative Assistant at The Hartford where I ended my career there as an Executive Assistant to an EVP of one of the investment divisions. I then worked as an independent sales executive for a promotional products company, while raising our 2 daughters.

More importantly and also relevant to Black Point, I was extremely active in our community:

- I served on the board of the Make A Mark Region 10 Enrichment Fund for 5 years.
- I was a member of the LSM Crew Booster Club where I served as president for 4 years.
- I was a member of our local Lions Club for many years, serving at VP for 3. I have extensive conference planning and event planning experience.

During my 1st year on the BOG I took on the role of Rec Program Liaison and I worked with the Town of Waterford on the concerns over the Data Center. I've learned quite a bit about the history and current Recreation Program and have actively taken steps, along with the Program Director, to continue to improve the program for years to come.

I believe that all my experiences fit well with the role of a member of the BOG Board and the work that is required to keep Black Point the wonderful community that we all enjoy. I'm passionate about our community and coming and working together in a collaborative and productive manner for the greater good of all our members. I'm very excited to have the opportunity to help our community continue to grow and maintain our little slice of heaven, and I would appreciate your consideration to allow me to continue to work for Black Point.
